Test Summary Report

1. Document Information

- **Project Name:** Automation Exercise E-Commerce System
- **Release / Version:** v1.0
- **Date:** October 2026
- **Prepared By:** Mohamed Ahmed (QA Engineer)
- **Environment:** Chrome Browser / Windows 11 / QA Testing Environment

2. Objective & Scope

- **Objective:** This report summarizes the execution of test cases and bug logging for the E-commerce core workflows on `automationexercise.com`.
- **In-Scope Modules:** User Registration, Login/Logout, Product Search, Category Filtering, Product Details View, Cart Operations, Payment Method Selection, Order Confirmation.
- **Out-of-Scope:** API Automation Tests, Load & Performance Testing.

Metric	Quantity	Percentage (%)
Total Test Cases Executed	24	100%
Passed Test Cases	17	70.8%
Failed Test Cases	7	29.2%
Blocked Test Cases	0	0%
Test Coverage	100%	-

4. Defect / Bug Summary

A total of **7 defects** were identified and reported in Jira during this testing cycle.

Bug ID	Module	Defect Description	Severity	Status
B_REG_01	Registration	System accepts password less than 8 characters	High	Open
B_SEA_01	Search	No error message when searching non-existent product	Medium	Open
B_FIL_01	Filters	Brands section is missing from left sidebar	Medium	Open
B_ADD_01	Cart	Cart counter in navbar does not update	Medium	Open

Bug ID	Module	Defect Description	Severity	Status
B_CRT_01	Cart	Product quantity cannot be updated in cart	High	Open
B_PAY_01	Payment	Only credit card option is available	Critical	Open
B_CFR_01	Order	Confirmation message missing unique Order ID	High	Open

5. Recommendation & Final Sign-off

- **Final Status: Not Ready for Production**
- **Reason:** Pending the resolution of 7 open bugs in Jira (including Critical & High severity issues in Payment and Order processes).
- **Next Steps:** Re-testing will be conducted once the development team resolves the open Jira tickets and deploys the fix.
